PROFESSIONAL SUMMARY

Fullstack Developer with over 3 years of experience building web applications using Node.js, React.js, and TypeScript. Experienced in developing management systems, data processing solutions, third-party integrations, implementing SSO/RBAC with Keycloak, designing RESTful APIs, and deploying applications on Docker and Linux environments. Seeking to leverage my experience in product development, performance optimization, and scalable system design to contribute to building reliable, maintainable, and high-performing software solutions.

TECHNICAL SKILLS

Frontend:
ReactJS, NextJS, TypeScript, JavaScript, Redux Toolkit, React Query, Zustand, HTML5, CSS3, TailwindCSS, Ant Design.
Backend:
NodeJS, ExpressJS, PostgreSQL, TypeORM, Redis, BullMQ, JWT, RBAC, Keycloak.
DevOps & Tools:
Docker, Git, GitLab, GitLab CI/CD, Jenkins, Linux, Nginx, Swagger, Postman, DBeaver, Redis Insight, Konga

EXPERIENCE

CODEC VIETNAM TECHNOLOGY JSC

05/2023 - 05/2026

Fullstack Developer

Team: 8–10 members
Tech Stack: NodeJS, ExpressJS, ReactJS, NextJS, TypeScript, PostgreSQL, TypeORM, Redis, BullMQ, Keycloak, Kong/Konga, Docker, GitLab CI/CD, Cloudinary, Firebase

- Participated in developing an online tuition management and payment system serving more than **600 schools**, building administrative interfaces using React.js, TypeScript, and Ant Design.
- Developed large-scale data management screens using AG Grid, supporting filtering, searching, pagination, data export, and virtual scrolling.
- Implemented centralized authentication and authorization using Keycloak, supporting Single Sign-On (SSO) and Role-Based Access Control (RBAC) across internal systems.
- Developed RESTful APIs for user management, product management, service packages, and operational workflows.
- Built background processing and partner data synchronization services using Redis, BullMQ, and Cron Jobs.
- Optimized PostgreSQL query performance using Materialized Views for pricing and aggregated business data.
- Integrated Firebase Realtime Database for real-time notifications and system status synchronization.
- Participated in API Gateway management using Kong/Konga and deployed applications on Linux environments with Docker, Nginx, and GitLab CI/CD.

- Worked directly with clients and business partners to analyze requirements and propose technical solutions.
- Mentored interns, conducted code reviews, and supported onboarding and development processes.

ASIM GROUP

10/2022 - 05/2023

Frontend Developer

Team: 5–8 members
Tech Stack: ReactJS, TypeScript, Redux, HTML5, CSS3, HLS.js.

- Developed user interfaces for online news and television platforms using React.js and TypeScript.
- Built responsive interfaces optimized for Desktop, Tablet, and Mobile devices.
- Managed application state using Redux and integrated RESTful APIs.
- Optimized video streaming experiences using HLS.js across multiple browsers and devices.
- Participated in maintaining, enhancing, and developing new features based on project requirements.

EDUCATION & CERTIFICATIONS

FPT Polytechnic College (2020 – 2022)
Major: Computer Programming

Academic Preparatory English – Level 3 (Topnotch 2) (2022)
